The children follow the street-cleaners to stand in the water that flows that is used occasionally to cool perspiring horses also cools scores of children, who stand in the spray utterly oblivious of how wet their clothing may

day, and the parts that are open at night have tenants during the entire plorable. twenty-four hours. The upper portion of the pier at East Third street, one of the most useful piers on the water front, is closed from 9 P. M. until 5 A. M. It would be a genuine act of charity-it seems almost a necessityto keep it open all of the time during such torrid weather as is now prestrat-

The public swimming bath attached to this pier accommodates many thousands A. M., and the wind light from the in a day. About two batches are turned into the place each hour, and there are from 500 to 550 in each batch.

trance and tries to preserve order when perature at 8 A. M. was 73; humidity, the crowd is permitted on the gaugplank. The pleadings to be admitted
after the attendants have signalled that
no more can be accommodated are pitiful.
The swimming bath is open from 5
A. M., and an hour before that time a
crowd of several hundred beys and men
were on the pier anxious for a dip in
the cool waters of the East River.
Hundreds of baby carriages cover
the lower part of the pier, while the
tired mothers enjoy the fiftul breezes
and watch the little ones roll on the
floor. The seats are nearly all occupied,
many of the occupants sleeping as
soundly as they ever slept. In no place
in New York City can the effect of
the neat be seen better than on the
East River pier at Third street, and a
visit there will convince any one that
the money used in building the recreation piers was well expended. the crowd is permitted on the gang-

HEAT STOPS WORK IN NEW JERSEY.

heat in New Jersey, and idvices from various points throughout the State indicate no lowering of the temperature.

More factories abut down in Newark to-day, the employees finding it impossible to continue their labor under the

to-day, the employees finding it impossible to continue their labor under the existing weather conditions, and in shops where work was continued there were many absentees.

As to-motrow is a holiday the employees in the department stores and other big concerns will have a chance to recuperate, and thousands will welcome the day as affording them a chance to get away from the city and enjoy a day at the seashore.

Despatcaes from New Brunswick, Passaic, Paterson and Can den all report great suffering from the heat, and everywhere manufacturing is practically at a standstill.

A majority of the factories have closed down until after the Fourth, and many will remain closed longer than that if the hot wave does not pass away. Almost all the foundries are closed, as it was found impossible to keep the men at work owing to the nature of their employment.

Numerous cases of heat prostrations are reported in the cities names.

MORGUE CROWDED WITH BODIES.

The Morgue was so crowded with the bodies of the heat victims to-day that many of them were taken away to Pot-ter's Field before the usual five days allowed for identification. In one load the Charities Department steamer Fi-

Morgue. The two dead wagons and some police patrol wagons were bringing in others, so that some preparation for receiving them had to be made. It was then decided that some bodies could not remain longer.

Many people called to try to identify capes.

missing persons. Among them were women looking for husbands and husbands trying to find wives. All were allowed to look at the bodies the Fi-There was no let up in the number of bodies arriving all day. From all parts of the city came a constant stream of undertakers wagons, patrol wagons, grocery wagons, etc. each bearing its quota of dead. The officials of the Morgue were at their wits ends.

HEAT WAVE OVER NATION.
